SCHOOL OF GOVERNMENT

# Where Future Leaders THRIVE

The first Arab academic research institution specialized in government administration, and public policy; and the main reference for the UAE model of governmental excellence on the global stage since 2005.

The leaders of tomorrow are the goal of this nation, the foundation of its future, and we will work on developing their capabilities and knowledge to achieve ever-evolving government administrations.

**HH. Sheikh Mohammed bin Rashid Al Maktoum**

We derive our research, academic, and training approaches from the vision of His Highness Sheikh Mohammed bin Rashid Al Maktoum.

# We are Future Proof

We align with current and future advancements, committed to developing leaders who excel and inspire. Our focus is on three core pillars: innovative research and policies, comprehensive academic programs, and executive education, laying the foundation for our school's leadership in educational excellence and impactful success.

Programs**

**Policy  
Research**

# Policy Research

## We design, create, and innovate leading public policies.

We are among the most important research centers for governments and an effective foresight platform for producing modern and innovative government policies in collaboration with major international organizations.

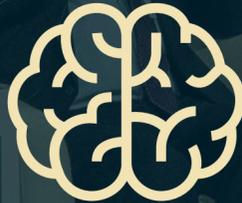

### Our research focuses on several key areas:

- Public Policies
- Sustainable Development Policies
- Future Government & Innovation
- Sustainable Government Policies
- Public Leadership Policies
- Education Policies
- Social Policies
- Health Policies
